30+ years of experience

PROFILE

Software developer and consultant with decades of experience in the design and delivery of business applications, Client/Server and API systems, production software, and document management solutions. I work across the full software development life cycle (analysis, design, development, test & deploy, maintenance), both independently and in Agile/Scrum teams. Strong focus on results and operational support.

Role: Consulting · ongoing collaboration **Sectors:** industrial · business software · document management

PROFESSIONAL EXPERIENCE

Senior Software Engineer

2019 — present

Atom S.p.A., QShop S.r.l., Fisascat, Nastrificio Victor S.p.A.

- Optimization algorithms and GUIs for automatic/semi-automatic shape nesting (cutting machines)
